REPORT OF COUNCIL

To the Members, at the Annual General Meeting, Tuesday, February 26th, 1901.

I. SESSION 1899–1900.

PUPILS AND FEES.

The entire number of Pupils during this Session was 1412, being a decrease of 5 on that of the preceding Session. Of these 1002 were Students in the College, and 410 Pupils in the School. Of the Students, 261 belonged to the Faculty of Medicine, 78 being new Students: in the Faculties of Arts and Laws and of Science there were 759 Students, 404 being new Students. The largest number of Boys in the School in any one Term was 335.

In the Faculties of Arts and Laws and of Science these figures show, as compared with the preceding Session, an increase of 6 in the new Students and a total increase of 7; and in the Faculty of Medicine an increase of 3 in the new Students, and a total decrease of 23.

The Fees received (exclusive of those for Clinical Instruction) amounted to £23,113 13*s.* being £448 17*s.* 6*d.* more than in the Session 1898–9.

The details for the two Sessions compared were as follows:—

	1899–1900.			1898–99.		
	£	*s.*	*d.*	£	*s.*	*d.*
Faculty of Medicine	3,424	11	6	3,476	0	6
Faculties of Arts and Laws and of Science	12,342	4	6	12,043	10	0
School	7,346	17	0	7,145	5	0
	£23,113	13	0	£22,664	15	6

In addition to the above-stated amounts, the sum of £1,014 16*s.* 6*d.* was received for Clinical Instruction in the Hospital, making a

total of £4,439 8*s.* 0*d.* paid by Students of the Faculty of Medicine in the Session.

The share of fees paid to Professors, Teachers, and Masters amounted to £16,581 19*s.* 1*d.*

SCHOOL.

The returns which have been laid before the Council show that the discipline of the School remains in a satisfactory state.

In 1900, 17 pupils passed the Matriculation Examination of the University of London; 1 pupil has passed 19th for the Royal Military Academy at Woolwich.

The following Table shows the number of boys in the School in each of the three Terms of the last five Sessions:—

	1st Term.	2nd Term.	3rd Term.	Average for the year.
1895–96.....	349	353	367	356
1896–97.....	352	339	354	348
1897–98.....	359	362	342	354
1898–99.....	323	308	307	313
1899–1900....	309	314	335	319

From the Tables submitted it appears that 12 boys were entered in the Black Book last Session, the total number of entries being 13.

The Horton Memorial Scholarship was awarded to W. A. C. Goodchild.

Four Open Scholarships will in June next be offered for competition among boys between the ages of twelve and fourteen, whether already in the School or not. The first scholarship will defray all tuition expenses, the remaining scholarships will be of the value of 12 guineas per annum.

The introduction of Form Masters in the middle and lower portions of the School, besides simplifying the organization, seems likely to secure better all-round development on the part of the pupils and makes the work of the Form Master more interesting, inasmuch as it gives him definitely the responsibility for his pupils' progress.

The Commercial Department is working successfully. The L.C.C. Scholarships have brought 20 boys of more than average mental ability to the School. A Museum of commercial products and raw materials has been started in connexion with this department and has received many gifts. The beginnings of a special library have been made.

Through the generosity of Mr. J. Wilson Swan a Morris-tube Rifle-Range has been erected in the playground. The Cadet Corps has grown both in numbers and efficiency,

Games have been organized in Regent's Park for junior boys and have proved very popular.

The School was represented at the Educational Exhibition at South Kensington, and some of the exhibits were chosen to be sent to Paris.

An exhibition of Boys' Hobbies was held at the School in July and visited by large numbers of Parents and friends.

Two new Prizes have been offered annually by the Navy League for the best Essays, Senior and Junior, on some subject connected with the British Navy.

THE BRANCH SCHOOL.

The Preparatory School at Hampstead goes on satisfactorily under the Head Master, Mr. C. Simmons. There are at present 73 boys in the School. The Council are considering a scheme for an extension of the school premises.

II. GENERAL FINANCES.

The excess of expenditure over receipts for the financial year ending August 31st, 1900, was £2,132 7*s.* 4*d.*, of which £1,169 2*s.*1*d.* is due to interest on the loan from the Bankers, and £400 (included under "Additions, Alterations, etc.") is special expenditure for the refitting of the Physiology Department.

The loan from the Bankers amounted to £29,500 as compared with £27,000 at the end of the year 1899–1900; of this loan £21,791 14*s.* 8*d.* is on account of buildings (*viz.* £2,098 7*s.* 7*d.* on the Old Building Fund Account, and £19,693 7*s.* 1*d.* on the Building Fund Account, of the Engineering wing), and the remainder is due in part to permanent improvements such as the installation of electric light and in part to the excess of ordinary expenditure over income.

The loan from the Bankers originated many years ago and was at first only temporary, money being borrowed towards the end of a session and repaid at the opening of the next session: in this way the College avoided keeping a large uninvested balance at the Bankers throughout the session. The loan has now increased to such an amount that it is only possible to repay a portion of it at the beginning of a session: under these circumstances the Bankers asked for a security which has been provided in accordance with the terms of the resolution passed at the Extraordinary Meeting of Members of the College last June.

The sale of the Bacon Stock recorded in the Balance Sheet was to enable the Council to complete the purchase of the School Athletic Ground. This transaction has been treated in the College accounts as a change of investment, and involves no loss to the College as the saving of the former annual rent of £60 more than balances the loss of interest on the £1200.

III. THE CURRENT SESSION.

The entries of Students to February 1st, 1901, have been as follows:—in the Faculty of Medicine, 191, of whom 50 are new Students; in the Faculties of Arts and Laws and of Science, 654, of whom 313 are new Students.

The entries in the School, in Michaelmas Term were 351, of whom 57 were new pupils; in the present Term, 346, 38 being new pupils; adding the 73 Boys in the Branch School at Hampstead, this makes 419 in all.

The College Fees received to February 1st are £2,269 1*s.* 0*d.* in the Faculty of Medicine, and £10,172 8*s.* 0*d.* in the Faculties of Arts and Laws and of Science. This shows a decrease of £344 0*s.* 6*d.* as compared with the same date of last Session.

IV. THE WORK OF THE COLLEGE.

List of Original Papers and other Publications from the College during 1899 & 1900.

[It has been the custom of the Deans for some years past to prepare this list: the Council feel that it is of great interest and importance, and therefore reprint it for the information of Members.]

Latin.

Professor A. E. Housman.

Post-Graduate Courses of Lectures and Laboratory Work, carried on at University College, London.

[These have been collected and put into a special prospectus for the first time this Session: the Council feel that they will be of interest to Members.]

1. **POLITICAL ECONOMY.**—Prof. Foxwell, M.A.

(*a*) The Newmarch Lectures will be delivered on Wednesdays, during the Third Term. They deal with the Methods of Statistics, and some of its applications to Economic Investigations.

(*b*) The Physiocratic School, with special reference to the Writings of Quesnay, Mirabeau, Mercier de la Rivière, and Turgot. These Lectures are delivered twice weekly, during the Third Term.

2. **MATHEMATICS.**—Prof. Hill, D.Sc., F.R.S.

(*a*) One Lecture a week on the Theory of Analytic Functions.

(*b*) One Lecture a week on the Algebra of Quantics.

3. **PHYSICS.**—Prof. Callendar, M.A., LL.D., F.R.S.

The Physical Laboratory is open during the year for Research Students under the guidance of the Professor, who will, if required, suggest subjects, and is always ready to give advice and assistance.

4. **CHEMISTRY.**—Prof. Ramsay, Ph.D., LL.D., Sc.D., F.R.S.

(*a*) Advanced course of Physical Chemistry. Lectures on this subject are delivered, during the Second and Third Terms, twice weekly.

(*b*) Lectures on recent discoveries in *Organic Chemistry* are delivered by Assistant-Professor M. W. Travers, Dr. Donnan, and by other workers in special Departments connected with their own research. The Lectures are given twice weekly during the Second and Third Terms.

(*c*) A course of Lectures on Spectroscopy and Spectroscopic Appliances, is delivered by Mr. Baly during the Second Term, at a convenient hour in the late afternoon.

(*d*) A special course of Lectures (under the auspices of the London County Council) will be delivered during the Session 1900–1901, by Dr. W. Hampson, on "Methods for Producing Artificial Cold," on Friday evenings at 5.30, during the winter.

The Chemical Laboratory is largely attended by Research Students, who pay a much reduced fee. Special facilities are provided for spectroscopic research, and for experiments requiring low temperatures.

5. **GEOLOGY.**—Prof. Bonney, D.Sc., LL.D., F.R.S.

Research Students are aided in investigation by the Professor as far as circumstances permit.

6. **BOTANY.**—Prof. Oliver, M.A., D.Sc.

Courses of Lectures on :—

(*a*) The Biology and Distribution of Plants, dealing especially with the relations of plants with their surroundings and with one another.
On Mondays, Wednesdays, and Fridays at 10 a.m., during the First Term.

(*b*) A Special Course by Mr. W. C. Worsdell.
On Wednesdays and Fridays at 2 p.m., during the Second Term (probably).

(*c*) The Sporangium.
On Mondays and Thursdays at 10 a.m., during the Second Term. This is one of the prescribed special subjects in the B.Sc. Honours syllabus for 1901. This course of lectures is free.

(*d*) During the Third Term special facilities will be given for the study of Practical Plant Physiology.

Amongst recent additions to the Botanical Collections of the Department are :—

(*e*) A very fine set of preparations illustrating the structure of the Plants of the Coal Measures.

(*f*) Several collections of North American plants.

These, like the other collections, are accessible to Students.

(*g*) Students engaged upon original investigations in the Laboratory are admitted at a nominal fee.

7. **ZOOLOGY AND COMPARATIVE ANATOMY.**—Prof. E. A. Minchin, M.A.

(*a*) A course of Lectures on the Hydrozoa is delivered on Tuesdays during the Second and Third Terms.

(*b*) In alternate years, courses on Odontology and on Vertebrate Palæontology are delivered by Dr. E. Warren.

Students whose qualifications are regarded by the Professor as satisfactory, are admitted to research work in the Laboratory at a small fee.

The Laboratory is provided with aquaria, salt and fresh water, incubators, etc. The Professor is at all times ready to give advice and assistance to those engaged in original work.

8. **PHYSIOLOGY.**—Prof. E. H. Starling, M.D., F.R.S.

The Laboratory is open at all times for research work, and is well equipped in all branches, physical, chemical, and histological.

Special courses of advanced Lectures will be given as follows :—

(1) Assistant-Professor Swale Vincent. "The Structure and Functions of the Ductless Glands." Once a week during the First Term.

(2) Dr. W. A. Osborne. "The Chemistry of Proteids and their Disintegration-products." Once a week during the Second Term.

(3) W. M. Bayliss, B.A., B.Sc. A course of lectures and demonstration "On the Electromotive Phenomena of Living Tissues." Third Term.

(4) Prof. Starling. "On certain Problems in Metabolism." Once a week during Second Term.

The advanced course of Practical Experimental Physiology will be held on two days in the week during the First Term.

The advanced practical course of Physiological Chemistry will be held on two days in the week during the Second Term.

The advanced course of Practical Histology will be held on four or five days in the week during the Third Term.

All these courses are designed as preparation for original work, as well as for the requirements of such examinations as the B.Sc. Honours (London).

9. **PATHOLOGICAL CHEMISTRY.** — Prof. Vaughan Harley, M.D.

The Laboratory is open for work from 9 a.m. to 5 p.m., during which time an Assistant is constantly present.

Instruction is given to the Students at any time, in the methods of chemical analysis of various pathological substances, as of the blood, gastric contents, fæces, urine, etc.

Each member of the class is given actual material to analyse, and from the results he obtains is required to make a diagnosis, which is corrected if necessary.

Lecture demonstration on the application of the results obtained by analysis, together with discussions on pathological chemistry so as to show its value in the diagnosis and prognosis of disease, are given in the afternoons.

Specimens of interest, as they occur, are demonstrated to the classes.

The fee for the class, including apparatus and material, is Five Guineas.

10. **EGYPTOLOGY.**—Prof. Flinders Petrie, D.C.L., LL.D.

(*a*) Courses of Lectures on History and Archæology are delivered during the First and Third Terms.

(*b*) A Course of Lectures on the Ancient Egyptian language is given by Mr. Ll. Griffith.

There is an almost complete Library of Egyptology, and facilities for research are provided, and are largely taken advantage of.

During the Second Term, the Professor and his special students spend their time in Egypt. There is a Special Fund—the "Egyptian Research account"—which is devoted to the keep of a student in Egypt each year.

11. **PHILOSOPHY OF MIND AND LOGIC.**—Prof. J. Sully, M.A., LL.D.

(*a*) An Advanced Course in Psychology is given during the Second Term.

(*b*) A Practical Course in Experimental Psychology is given by Mr. W. McDougall, M.B., in the Psychological Laboratory during the Second Term.

12. **APPLIED MATHEMATICS.**—Prof. Karl Pearson, F.R.S.

The Professor is always willing to find research-work for those desirous of making original investigations in (i.) the Theory of Elasticity, or (ii.) the Mathematical Theory of Statistics; but it is essential that such workers (i.) should have already acquired a competent knowledge of Mathematical Physics or be attending the Senior Course of Analytical Lectures (F), or (ii.) should have attended or be attending the Courses in Statistics (G and H) given in the Department.

In the case of post-graduate or research Students who are attending or have attended one or other of these Courses no Fee will be charged, but the Professor will give such guidance and allow such use of instruments as is compatible with the ordinary work of the Department. For other workers the Fee will be £2 2*s.* per Term.

In the case of all three Courses, F, G, H, referred to above, the material is modified to suit the needs of special Students. In the Session 1900–1901, however, there will probably be Courses under F of

(i.) Advanced Theory of Elasticity,

and under G of

(ii.) Quantitative Theory of Heredity.

Mr. Rogers Field.
Mr. J. N. Foster.
Dr. Wm. Marcet.
Dr. James Morris.
Mr. J. A. Russell.
Dr. C. B. Sewell.
Mr. Henry Sidgwick.
Mr. S. G. Smith.

NEW GOVERNOR.

Sir Richard Farrant, K.B., has been admitted a Governor of the College on the nomination and in the place of Mr. Newton Pitt.

THE VICE-PRESIDENTSHIP.

The Council regret to announce that the Rt. Hon. Sir Ughtred J. Kay Shuttleworth, Bart., M.P., has been obliged, owing to ill-health, to resign the office of Vice-President. The Council have nominated the Rt. Hon. Lord Monkswell, who has been for many years a member of the Council, for the office of Vice-President, and feel confident that their nomination will be approved by the Members.

THE TREASURER.

Mr. W. Arthur Sharpe having expressed the desire to be relieved of the office of Treasurer, the Council have resolved to nominate for that office Sir Richard Farrant, K.B., Governor of the College.

The Council desire to record their high appreciation of the untiring services rendered to the College by Mr. Sharpe both as Treasurer and as Chairman of the Committee of Management. It gives them great satisfaction that he consents to retain his seat on the Council.

PROFESSORIAL AND OTHER APPOINTMENTS.

Faculty of Arts and Laws.

The Rev. J. E. Marks resigned the Lectureship in Burmese on the ground of ill-health, and Mr. J. E. Bridges has been appointed Lecturer in his place for one year.

Mr. F. Haverfield, of Christ Church, Oxford, has been appointed Yates Lecturer in Archæology for one year.

Mr. W. Jethro Brown, LL.D., Litt.D., has been appointed to the Chair of Constitutional Law and History.

The Chair of English Law has been re-instituted and Mr. W. T. Whittaker, MA., LL.B., has been appointed thereto.

In accordance with the requirements of the Trust Deed the Council appointed a Committee to consider the application of the Grote endowment, and after receiving their report resolved:

> "That the endowment provided by the Grote Fund be continued to Professor Sully for a further period of four years."

Faculty of Science.

In October last Professor T. G. Bonney placed his resignation of the Yates-Goldsmid Chair of Geology and Mineralogy in the hands of the Council, whereupon it was resolved unanimously:

> "That the Council accept with great regret Professor Bonney's resignation of the Professorship of Geology and Mineralogy, and desire to put on record their very high appreciation of the value of his services to the College during twenty-three years, and their sense of the distinction which his tenure of the Professorship has conferred on the College."

Mr. E. J. Garwood, M.A., has been appointed to succeed Prof. Bonney.

Mr. Osbert Chadwick, C.M.G., has been re-appointed to the Chair of Municipal Engineering for a further period of five years.

Mr. E. Sprague, Mr. T. C. Lewis, M.A., Mr. H. Payne have been appointed Assistants in the Department of Applied Mathematics.

The title of Assistant-Professor of Applied Mathematics was conferred on Mr. L. N. G. Filon: of Assistant-Professor of Pathological Chemistry on Dr. F. W. Goodbody.

Faculty of Medicine.

The title of Emeritus Professor of Clinical Medicine has been conferred on Dr. Sydney Ringer: the title of Emeritus Professor of Clinical Surgery has been conferred on Mr. Christopher Heath.

Professor F. T. Roberts has been appointed Holme Professor of Clinical Medicine in succession to Dr. Ringer.

Professor Godlee has been appointed Holme Professor of Clinical Surgery in succession to Mr. Christopher Heath.

Professor G. V. Poore has been appointed Professor of Medicine in succession to Professor F. T. Roberts.

Dr. Risien Russell has been appointed to the Chair of Medical Jurisprudence, vacated by Prof. Poore.

Dr. J. Rose Bradford has been appointed to the Chair of Clinical Medicine.

Mr. Victor Horsley has been appointed to the Chair of Clinical Surgery vacated by Prof. Godlee.

Dr. W. B. L. Trotter has been appointed Demonstrator of Anatomy.

The title of Assistant-Professor of Physiology was conferred on Mr. Swale Vincent, M.B. Mr. Swale Vincent resigned the Sharpey Scholarship in December, and Dr. Osborne has been appointed to succeed him.

REPRESENTATIVE GOVERNORS.

Professor J. W. Neill has been appointed to represent the College on the Committee of the Oriental School established by the Imperial Institute in connection with King's and University Colleges.

Mr. Sidney L. Brunton has been appointed by the Council a Governor of Chelmsford Grammar School in place of Mr. R. E. Crompton.

APPOINTMENT OF A PRINCIPAL.

On the 14th of March the Council appointed a Committee consisting of Mr. Ashburner, Professor Hill, Lord Monkswell, Mr. Wood, and Mr. Worsley "to enquire into the serious position of the affairs of the College." The Report of this Committee, which was read to the Council on the 30th of May, contained among other suggestions the recommendation that a Principal of the College should be appointed. The Council referred this recommendation to the Senate and asked for an expression of their opinion upon it. The Senate having reported in favour of the recommendation, the Council resolved, at their meeting in July, "That the Senate's Report be adopted in principle," and on the 1st of August they resolved :—

"That Emeritus Professor G. Carey Foster be appointed Principal of the College as from August 1st, 1900, until August 31st, 1901, or until the earlier appointment of a permanent Principal."

The appointment of a Principal necessitates certain changes in the By-Laws of the College. The By-Laws have been revised from

this point of view, and the alterations recommended have been printed and circulated among the Members of the College whose approval of them will be asked at the General Meeting.

THE SECRETARY.

On the decision of the Council to appoint a Principal, Mr. J. M. Horsburgh, M.A., who had been Secretary of the College for 14 years, made known his willingness to retire from his office, thus facilitating such changes in the administration of the College as the Council might see fit to make. Mr. Horsburgh's resignation was accepted, to take effect from the 4th August, 1900, and his salary was continued for six months from that date and a subsequent retiring allowance of £250 a year was granted to him.

Mr. T. Gregory Foster, B.A., Ph.D., Fellow of the College and Assistant-Professor of English Language and Literature, a former pupil of the School and College, has been appointed Secretary.

THE FINANCIAL CONDITION OF THE COLLEGE.

As stated above the Council have through a Committee made an investigation into the financial condition and into the management of the College, and have as a result made certain administrative changes. The Council have resolved as a first measure towards restoring the College finances to a satisfactory condition to appeal to Members of the College for annual subscriptions, at least for a term of years, and they hope by this means to be able without diminishing the efficiency of the College to at least equalise income and expenditure.

The Council is considering the future measures to be taken to pay off the debt and to provide for the much-needed extension of several departments of the College, and a report will be issued as soon as possible.

ANNUAL SUBSCRIPTIONS.

The first list of annual subscriptions promised in answer to this appeal is printed at the end of the Report (p. 30).

BUILDING FUND ACCOUNT.

The Council have much pleasure in announcing that Mr. J. Eccles, Life Governor of the College, has promised a donation of £500 towards reducing the debt (see p. 6) on this account, and they will welcome other donations for the same purpose.

ENDOWMENTS AND DONATIONS.

Gladstone Prize: The Council has accepted the offer of the Committee of the Liberal Memorial to Mr. Gladstone to give an annual prize of the value of Five Pounds in books, and has resolved in accordance with the terms of the offer to institute a prize for a Historical Essay.

The subject of the Essay for this session is "The Political Ideals and Experiments of the Period of the Civil War and Commonwealth."

Postgate Fund: Professor J. P. Postgate has given the sum of £50 for investment as a fund to promote the study of Comparative Philology among the students of the College.

The Schäfer Fund: The Committee of the Schäfer Fund have handed to the Council the sum of £200 for investment as a fund to advance the study of Physiology, and have suggested that the income be expended on a prize to be awarded for research work performed under the direction of the Professor of Physiology.

The College Conversazione Committee handed over to the College funds the sum of £41 12*s.* 8*d.*, being the balance of the Conversazione fund.

The Crabb Robinson Trustees renewed their grant of £50 towards the rent of the Athletic Ground, and made liberal grants amounting to £174 2*s.* 0*d.* for the purpose of improving the students' bicycle house and repairing the racquet court.

UNIVERSITY OF LONDON.

The Statutes framed by the Commissioners under the University of London Act, 1898. recognize the College in all its Faculties as a School of the University. With one or two (apparently accidental) exceptions, all the Professors and principal teachers of the College are recognized as Teachers of the University, and a large majority of them are admitted as Members of one or other Faculty of the University. The University Faculties of Arts and Engineering have elected Professors Ker and Beare as Deans of those Faculties respectively. Professor Foxwell was elected Dean of the Faculty of Economics, but was unable to accept the office.

The Statute framed by the Commissioners confers upon University College, London, the right of nominating two members of the Senate of the University. In the exercise of this right, the Council, on the 10th October, 1900, nominated the President of the College, Lord Reay, and the Principal, Mr. G. Carey Foster, to be Members of the Senate. Other Members of the Senate who are connected with the College as Professors or Members of Council are :—

	Nominated by
Professor Sir Thomas Barlow, Bart...	Convocation.
Dr. J. Bourne Benson	Convocation.
Professor J. Rose Bradford	The Faculty of Medicine.
Professor M. J. M. Hill	The Faculty of Arts.
Professor W. P. Ker	The Faculty of Arts.
Professor William Ramsay	The Faculty of Science.
Mr. Sidney J. Webb	London County Council.

CONFERENCE ON A DEPARTMENT FOR THE TRAINING OF TEACHERS.

At the instance of the Council a Conference was convened early last year, consisting of representatives of King's College, Bedford College, the College of Preceptors, and of University College, to consider and discuss the question of establishing a Department for the Training of Teachers in connection with the University of London.

The Conference drew up a memorandum setting forth the lines on which such a department should be worked, and this memorandum was approved by the Councils of the respective Colleges.

It has now been forwarded to certain members of the Senate of the University of London together with a memorandum from each of the Colleges, showing exactly the organisation already existing that can be utilised for such a department.

THE PSYCHOLOGICAL LABORATORY.

This Laboratory is now in working order under the direction of Prof. Sully and Mr. McDougall, and should form an important part of a Teachers' Training Department.

The Council hope that those Members of the College who were kind enough to promise subscriptions for the four years, now elapsed, will continue them for another term in order to complete the equipment of this important department for advanced and research work.

INDIAN SCHOOL.

In the Session 1899–1900 there were in the Indian School 14 selected Candidates for the Indian Civil Service. They appeared for their further examination in September and the results were made known in October last.

Two of them were finally rejected; one because he could not satisfy the Medical Board, the other because he failed to qualify in Hindustani.

Of the twelve who passed their examination 9 improved their position compared with the competitive examination—some of them very greatly: one of them was second in the list, having been 31st in the first examination—another who had been 50th took the 5th place—one who had been 49th took the 20th.

In the Penal Code and Code of Criminal Procedure two of our students took the 1st and 3rd places.

In the Law of Evidence and Contract one of our students was bracketed 1st.

In Hindu and Mahomedan Law again two of our students were 1st and 2nd.

In Bengali, Burmese, and Chinese our students took the highest places.

This Session we have 16 selected Candidates for the Indian Civil Service out of 52; of the remainder 26 are spending their year of probation at Oxford, 7 at Cambridge, and 3 at Dublin University.

TEACHING OF CHEMISTRY.

The Faculty of Medicine have urged upon the Council the importance of improving and extending the accommodation now existing in the Department of Chemistry for the teaching of Medical Students.

The Faculty have submitted a scheme which will effect what is required by removing the books from the room now used as the Chemical Library and throwing that room into the adjoining Practical

Chemistry Room. The estimated cost of the structural alterations, of the fittings of the new room and of re-fitting the old class-room is rather more than £600.

Several members of the Faculty have shown the importance they attach to this improvement by raising the sum of £450 to meet the cost: the success of this movement is specially due to the energy of Professor Starling. The Council hope that either by special subscriptions or by a quick response to the appeal for annual subscriptions, the Members of the College will enable them to complete this improvement without further trenching on the resources of the College.

JOINT LECTURES WITH BEDFORD COLLEGE.

The Council beg to draw attention to the arrangement made experimentally for one session for courses delivered by the joint staffs of Bedford and University Colleges in the advanced branches of the English and German Languages and Literatures.

The experiment is working successfully and ought to prepare the way for a regular intercollegiate arrangement such as is suggested by the University Commissioners.

THE ENGLISH EDUCATION EXHIBITION AND THE PARIS EXHIBITION.

The College was represented at the Education Exhibition held at South Kensington in January, 1900, by a series of exhibits showing the varied activity of the College in its different Faculties and Departments and exhibiting by means of three charts the growth of the College from its foundation.

A large number of the exhibits were selected to go to Paris.

A Gold Medal was awarded to the University of London as an "inclusive award" including University and King's Colleges.

LIBRARY RE-ORGANISATION.

In accordance with the recommendations of a Special Committee consisting of members of the Council and Senate, the Council have resolved to re-organise the College Libraries. In order to carry out this re-organisation the Committee suggested changes in the Library staff and the conference of fuller powers on the Librarian. The Council have appointed to the post of Librarian Mr. R. W. Chambers, Fellow of the College, who has already had considerable experience in Library work. Mr. Chambers will take office in March, when the present librarian Mr. A. W. Wheeler retires, after a service of nearly thirty years. The Beadle in the Medical Library, Mann, has been superannuated after a service of over thirty-five years.

THE VAUGHAN BEQUEST.

Most of the valuable works of Art (see Annual Report, 1900) bequeathed to the College by Mr. Henry Vaughan, the founder of the Andrews Scholarships, have been received and are being catalogued and arranged by Prof. Frederick Brown.

In order to display them in a suitable and worthy fashion and so as to make them useful to students of Art, it will be necessary to spend about £100 in mounting and framing them. It is especially desirable to do this in the case of the Liber Studiorum proofs.

Prof. Brown has contributed £10 as the nucleus of a fund for the purpose.

The bust of Mr. Vaughan's mother, in whose memory he founded the Andrews Scholarships, has been placed in the Council Room.

THE UNION AND OTHER STUDENTS' SOCIETIES.

The Reports of the Students' Societies show that the corporate life of the students of the College is in a healthy condition. The popularity and usefulness of the Union Society is steadily growing as evidenced by its many-sided activity and by an increase of 40 in its roll of membership. The efficiency of its members has been proved this year by the victory of the Association Football Club in the Inter-Hospital cup ties, and by that of the Chess Club in the Inter-Hospital Chess Tournament.

FOUNDATION DAY.

Foundation Day was celebrated under the auspices of the Union Society on Wednesday, May 23rd. Professor Housman delivered the Oration on "Commemorations" to a large audience. Lord Kimberley, the Chancellor of the University of London, was in the Chair.

PUBLIC DEBATE.

The Debating Society held a successful Public Debate on the question of the South African War. The Hon. Mr. Justice Cozens-Hardy, Fellow of the College, a former president of the Society, was in the Chair.

MUSICAL SOCIETY.

The social life of the College has been strengthened by the re-institution of the Musical Society. The Society's Concerts have maintained a high standard and have been much appreciated.

THE COLLEGE GAZETTE.

This is carried on entirely by Students and generally reflects student-opinion on College and University politics. It appears twice a term.

HOSPITAL.

The erection of the New Hospital, the gift of Sir Blundell Maple, is making rapid progress; the North-West Wing containing 4 Wards and the Scientific Department, and the Central block containing the Operating Theatres and Offices, were handed over for occupation on the 24th September, 1900.

Three floors of the Nurses' Wing at the South-West corner, together with the Laundry, were opened in December.

It is hoped that the two remaining floors of the Nursing Wing and the floor to be used for the Resident Officers' bed and sitting-rooms will be ready for occupation early in the spring.

The demolition of the South Wing of the old Hospital is now in rapid progress, to clear the site for another Ward Wing.

The Hospital has at present 185 beds available for clinical instruction and study. During the year 1900, 2696 In-patients were admitted to the wards, 35,788 Out-patients (including Casualties) received advice and relief, and 1665 Midwifery cases were attended. In addition to the Medical and Surgical Wards for general diseases, the Hospital contains special Wards for Diseases of Women and Children, for Ophthalmic affections, and for Skin disorders. In connection with the Skin Department there is a complete system of Medical Baths.

An Association entitled the "University College Hospital Ladies' Association" has been formed:

(*a*) To provide clothes to be lent or given to destitute patients on their convalescence or discharge from the Hospital.

(*b*) To take up any other work in connection with the Hospital which may from time to time commend itself to a General Meeting of the Association.

The President of the Association is Her Grace the Duchess of Bedford, the Treasurer is Mrs. R. J. Godlee, 19 Wimpole Street, W., and the Secretary is Mrs. Bradford, 8 Manchester Square, W., from whom further information may be obtained.
